Art Unit: 2879

1. The following is an examiner's statement of reasons for allowance: prior art of the record does not disclose applicant's specifically claimed plasma display panel including a combination of: a front substrate; a plurality of row electrode pairs; a dielectric layer covering the row electrode pairs on the inner surface of the front substrate; a protective layer covering the dielectric layer on the inner face of the front substrate; a plurality of column electrodes; a partition wall having dividing walls; unit light-emission areas formed at the intersections of the row electrode pairs and the column electrodes in the discharge space, and each defined by the partition wall, and each partitioned by the dividing wall into first and second discharge areas; a communicating element; and a secondary electron emissive layer formed of a material of coefficient of secondary electron emission higher than that of the protective layer and provided on a portion of an inner face of the dielectric layer facing the second discharge area.

Specifically, the prior art of the record does not disclose applicant's claimed plasma display device including: the secondary electron emissive layer of a material having coefficient of secondary electron emission higher than that of the protective layer and provided on a portion of an inner face

of the dielectric layer facing the second discharge area (in combination with all remaining elements recited in claim 1).

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Tokunaga et al, Tokunaga, Amemiya, Amemiya et al, Otani et al, Kobayashi, Nakajima et al, Otani et al each are cited for showing a general structure of a plasma display device.
